Royal Haskoning Vietnam is a 100% foreign invested company and a part of Royal Haskoning from the Netherlands with more than 4400 engineers and consultants world-wide. We are a multi-disciplinary engineering consultant, specializing in delivering total integrated projects. For buildings and structures, we provide consultancy services for industrial and commercial clients, both local and foreign for some of the world's largest multinationals.

Royal Haskoning Vietnam currently employs over 140 staff in Vietnam with offices in Hanoi and HCMC. Our primary area of expertise is the design and realisation of industrial and commercial projects. The company follows a policy of actively promoting and employing Vietnamese staff supplemented with foreign consultants. We strive to offer the highest quality services to our clients, with absolute commitment from start to finish.

The successful applicants will be working in a very positive and professional working environment. We offer on-the-job-training by international experts, good labor conditions and the possibility for inter-company rotation, if wished also outside Vietnam.

The services that Royal Haskoning Vietnam provides can be categorized as below:

- *Design services: architectural, civil, structural and M&E*
- *Project Management*
- *Tendering and contract management*
- *Construction Management, Safety Management and Site Supervision*

We are now looking for a **Foreign Project/ Construction Manager** to fill in our vacant position.

Requirements:

- Civil engineering/Architectural education.
- At least 8 years experience in the field of construction.
- Professional, dynamic and independent in works
- Experience in working with professional Quality Assurance systems
- Good in English on a professional level, both verbally and written
- Good communication with both foreign & Vietnamese people
- Having a pro-active attitude

Job Description:

- Direct project and construction management of projects of Royal Haskoning Vietnam.
- Setting up and managing the construction sites. Controlling contractors, liaising with clients.
- Controlling the quality, budget, progress, safety on site
- Leading site meetings
- Coordinating different contractors on site
- Weekly and monthly reporting of progress, quality, budget, etc.
- Implementing QA/ QC & Safety system.

- Inspections of works
- Organizing field testing, fabrication inspections, field visits, material approvals and so on
- Flexibility to work in and outside of HCMC.
- Long term commitment to Vietnam is a prerequisite
