Royal Haskoning Vietnam is a 100% foreign invested company and a part of Royal Haskoning from the Netherlands with more than 4400 engineers and consultants world-wide. We are a multi-disciplinary engineering, architecture & design consultant, specializing in delivering total integrated projects. For buildings and structures, we provide consultancy services for industrial and commercial clients, both local and foreign for some of the world's largest multinationals.

Royal Haskoning Vietnam currently employs over 130 staff in Vietnam with offices in Hanoi and HCMC. Our primary area of expertise is the design and realisation of industrial and commercial projects. The company follows a policy of actively promoting and employing Vietnamese staff supplemented with foreign consultants. We strive to offer the highest quality services to our clients, with absolute commitment from start to finish.

We offer competitive salaries, excellent working conditions managed by international architects and engineers, The successful applicants will be working in a very positive and professional working environment, on-the-job-training by international experts, good labor conditions and the possibility for inter-company rotation, if wished also outside Vietnam. The services that Haskoning Vietnam provides can be categorized as below:

- *Design services: architectural, civil, structural and M&E*
- *Project Management*
- *Tendering and contract management*
- *Construction Management, Safety Management and Site Supervision*
